Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative raised the lack of teaching by Heistermann on one feature related to a method for invoking metadata on a property; but Examiner has advised that in order for the claim to be in better condition for overcoming Examiner's rejection, some specificity to the claims need to be effected, not only to put forward what Applicant perceives as novelty over prior art but also to avert potential indefiniteness informalities issues from some claimed features which appear to mislead the Examiner into a wide range of interpretations..
